

HALİL ERCÜMENT ÇAYIR

FILMMAKER // PHOTOGRAPHER // CINEMATOGRAPHER // CAMERA OPERATOR // DIT // Jr. COLORIST

I am a freelance filmmaker based in Berlin. I have studied at the Marmara University of Fine Arts in the Film Designing Department and I am studying Master of Arts, Photography at University of Europe for Applied Sciences. I have worked in several movies, music clips, commercials, short movies and documentaries as a cameraman, assistant of camera, digital imaging technician, offline editor and junior colorist. My experience ranges from production to post-production and thus, I have a unique and holistic approach towards filmmaking. I completed my first short film "First 10K" in 2021

Since I was 16 years old, I have been taking analog and digital photography. I cannot deny the reality of the digital, but I believe that analog photography has truly improved my way of seeing the world. In any case, the driving force for me has always been my insatiable curiosity. I like to keep up to date and to follow new film trends and theories. In an ever-evolving and ever-changing industry, remaining young and dynamic is a must for me.
